

**PSY1106 – Introduction to Psychology,**

**Instructor:**

Dr. Luis F. Murillo [luisfernando.murillo@gmail.com](mailto:luisfernando.murillo@gmail.com)  
University of Toronto, University of Freiburg and University of Lausanne (Switzerland)  
Karolinska Institute (Stockholm), ELTE Department of Logic and Philosophy of Science.

Office hour is on Monday after class. Please send an email beforehand.

**Course Description**

This course is a one semester overview and introduction to psychology, with a strong emphasis on Historical Problems, Philosophical underpinnings of the Discipline, Psychoanalysis, and Biological Psychology

**Course Objectives**

- familiarise students with major areas of enquiry and schools in psychological research
- examine consciousness and embodiment
- address the question of the unconscious
- understand the structure and functioning of the nervous system, and sensory organs.

**Procedures**

Information will be presented in the form of lectures with interactive student participation. We will view and comment videos about scientific research.

**Honor code:** As a member of the McDaniel College community, you are expected to abide by the Honor Code on all of your assignments. All work should be submitted with the signed honor pledge, *"I have neither given or received unauthorized aid on this piece of work, nor have I knowingly tolerated any violation of the Honor Code."* We will discuss exactly what constitute plagiarism later in the semester.

## **Required Text**

R.L. Atkinson, et. al. Hilgard's Introduction to Psychology

A secondary text is available electronically from the instructor upon request
