### **Course Description**

This course examines evolutionary biological, cognitive, and social aspects of gender.

We examine the question of nature and nurture as it impacts gender identity and socialisation.

How do the brains of males and females differ? What consequences does that have for behaviour, personality, and social interactions?

### **Learning Objectives**

- Students will develop a foundational knowledge in the basic areas of the discipline
- Students will understand how psychological principles can be applied to the workplace
- Students will be competent comprehending scholarly literature
- Students will understand ethical principles as they apply to management psychology

### **Required Text and Materials**

Jerald Greenberg, Managing Behavior in Organizations, Pearson, Prentice Hall

Course textbook:

Alice H. Eagly, Anne E. Beall, Robert J. Sternberg, "The Psychology of Gender", The Guilford Press New York

Additional textbooks and articles will be shared via Dropbox.

### **Attendance Policy**

It is **imperative** that students understand that attendance and active reading for the course is essential to obtaining grades. The McDaniel College absence policy will be applied strictly, and it means that after three unjustified absences from class, a student's final grade drops precipitously (10% for any additional absences).

## **Assignments and Grading**

Grades will be based on

Class Participation:	20%
Midterm:	20%
Quizzes	20%
Term Paper:	20%
Final:	20%

## **Honor Code**

You are expected to adhere to the McDaniel College academic honor code. Plagiarism or cheating on a test will result in a zero for the given assignment and other possible sanctions.

## **Course Policies**

Participation implies attendance and making your voice heard; absences will be noted and will adversely affect your final participation grade.
