## Healthy & Safety Guidelines for the Fall 2022 Semester

### General Guidelines on Campus

- At present, masks are not required **but highly recommended** in the spaces of the campus. However, those in the building are urged to practice social distancing and bear in mind proper hygiene such as frequent hand washing whenever possible. The McDaniel administration reserves the right to change masking and other policies in the event that the Covid situation in Budapest, Hungary, and the region should itself change.

### What To Do If You Test Positive For Covid

- **In case you feel sick, please stay home.** If you test positive for Covid-19, you should self-isolate. You should do so **seven days before you return to campus.**
- If you are self-isolating, then a peer mentor will keep in touch with you. They will be in contact with you while you are recovering and make sure that you are not having any undue difficulties keeping up with your coursework.
- While you are self-isolating, you have many options for how to order food and toiletries. Here are a few of the best.

- In case of severe problems or concerns during self-isolation, please reach out to Dr. Labov and Dr. Adamson.
- Self-isolation with Covid-19 can be stressful and disorienting; if you need to talk to someone, please note that our mental health counselor is available for appointments online. You can reach him at [lsomogyi@mcdaniel.hu](mailto:lsomogyi@mcdaniel.hu).

### Returning to campus after illness

- Before returning to campus, please alert Dr. Labov and Dr. Adamson that you are returning, and they will make sure that the administrative record-keeping system recognizes that you have returned and no longer need to follow your courses remotely.
- If there should be any resumption of your symptoms after returning, then you should again self-isolate and notify Dr. Labov and Dr. Adamson.

The above regulations may be modified if required by the authorities.
